

Peppered with Fear!

Introduction: Today, we are going to make pepper run away from a cotton swab using dish soap.

Approximate Time: 3 minutes

Materials:

- Plate / Bowl
- Water
- Ground Pepper
- Cotton Swab
- Dish Soap

Procedure:

1. Pour water in the plate to fill the plate $\frac{1}{4}$ of an inch.
2. Sprinkle enough pepper in the plate to just coat the surface of the water.
3. Dip the cotton swab in the dish soap.
4. Dip the cotton swab into the center of the plate/bowl.
5. Watch the pepper run away from the cotton swab!

Tips & Tricks:

- Do not make the layer of pepper too thick
- Use a small amount of dish soap
